FACT BOLO.

What is Fact Bolo?
Fact Bolo is the online hub for fact-checking, validation, and negation of fake news, and misinformation.

How will Fact Bolo help with the Covid-19 crisis?
The damaging Covid-19 misinformation and myths are spreading as fast the novel coronavirus. Fact Bolo will focus on debunking these false claims with the help of human-assistive technology for fact-checking and negation of fake news and misinformation.

What is Fact Bolo's methodology for fact-checking?
Our fact-checking methodology is composed of three core elements – i) tracing the source, ii) searching for the origin, and iii) research and investigation of the claim. This process is a combination of both traditional journalism skills, and AI-based tools for assisting the human fact-checkers.

How does Fact Bolo determine the claim rating?
Fact Bolo uses the following five claim ratings, in decreasing level of truthfulness: True, Mostly True, Half True, Mostly False, and False. These ratings follow the code of principles and standards promoted by the International Fact Checking Network.
